

CTExprès™

WELCOME YOUR NEXT PATIENT

**3-channels syringeless
injector for CT scan.**

LIFE FROM INSIDE

We imagine you making the most of your time,
achieving results, taking care of your patients,
being the professional you want to be.

AND THAT'S EASIER WITH A REAL PARTNER BY YOUR SIDE.

CT Exprès is not just a product,
it's a member of a family of solutions and services
created from our clinical expertise,
our care for efficiency and safety,
and our relationship with thousands of happy customers.

**AS A GOOD
PARTNER
CTExprès™
CAN PROVIDE
REAL BENEFITS
TO YOUR DAILY
PRACTICE**

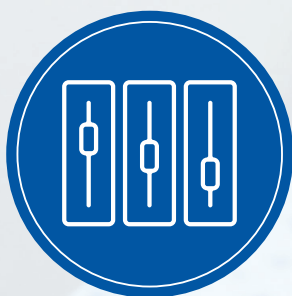

SOFT ON PATIENTS, STRONG ON RESULTS

CT Exprès is designed to achieve **high safety standards** and to help the operator to perform a **successful procedure**:

- **Sterile closed fluid circuit** thanks to a unique disposables design, minimizing the risk of environmental or cross-contamination.⁽¹⁾
- **No chance of disposable re-use** by design.
- **Immediate warning** of air detection and occlusions along fluid channels.

YOUR JOB, EXACTLY AS YOU WANT IT

Customization means efficient results; you can rely upon CT Exprès to achieve your **diagnostic goals** through its **tailoring features**:

- **Accurate delivery of Contrast Medium** delete automatically to the individual patient's requirements.
- **Support of the majority of contrast bottle sizes up to 1000mL**, and saline container for higher flexibility and efficiency.
- **Diluject*™**: rapid sequential phasing of contrast and saline to reduce contrast concentration for acute applications (e.g. uniform attenuation of the heart).

*All countries except USA

SIDE BY SIDE, STEP BY STEP

The trust you have in CT Exprès is never blind trust. **CT Exprès is made to put you in full control of the entire injection process.** While it helps you through the procedure every step of the way, it also provides you with all the information needed to take care of your patient:

- **Same information** on the injector screen beside your patient and the screen in the control room.
- **Guided use** at every step and contextual help.
- **Input and output data collection** can be recalled anytime.

DESIGNED FOR THE BUSIEST DAYS

We know you have a busy schedule and our technology is here to make things easier and procedures smoother. CT Exprès is designed to be efficient in saving your precious time so you can invest in what matters:

- Simple and fast patient changeover, quick Day Set insertion and plug-and-play Patient Set.⁽²⁾
- Optimal user-friendly digital interface with an excellent tested learning curve.
- Easy to clean.

OPTIMIZE PROCEDURES, REDUCE COSTS

The trust you give to CT Exprès rewards you every day. This is a premium product delivering performance and convenience at the same time:

- 2.6 patients more per day due to 65% saving preparation time: vs syringe-based injectors.⁽²⁾
- Up to 12% saving in Contrast Media cost due to 11mL contrast saving per examination vs syringe-based injectors.⁽²⁾
- Contrast waste reduction and optimized workflow resulting in overall cost efficiency.
